

Show and Tell -Spring Term 2012

In Class 1 we are continuing to give our Foundation Stage children the opportunity to bring in or talk about something during our Show and Tell time on a Friday morning. We have had a fantastic variety of items and subjects in recent months and hope to continue this! The session aims to encourage children to talk in a familiar group, ask questions and extend their thinking across all areas of the Early Years Foundation Stage.

Some ideas! The really interesting items that give the children something to talk about are often things found in nature (bugs, leaves, creatures!). Photos are also a great talking point (printed or send them in on a USB device or CD as they can be shown BIG on the whiteboard). It is our experience that bringing toys as a show and tell item often leaves the children little to talk and ask questions about. They are of course still allowed to bring these on their day if they wish.
