## **Accessibility Plan**

At Mawnan School, we want all children to enjoy school, to be challenged to achieve their very best, and to consider their time at the school as their own 'learning adventure'. We are committed to giving all our children every opportunity to achieve the highest of standards. We do this by taking account of pupils' varied life experiences and needs. We offer a broad and balanced curriculum and have high expectations for all children. The achievements, attitudes and well-being of all our children matter.

### **Purpose of Plan**

This plan shows how Mawnan School intends, over time, to increase the accessibility of our school for disabled pupils, staff, parents/careers and visitors in the three areas required by the planning duties in the Equality Act 2010 (i.e. the curriculum, physical environment and information).

### **Definition of disability**

A person has a disability if he/she has a physical or mental impairment that has a substantial and long-term adverse effect on his/her ability to carry out normal day- to-day activities.

Areas of planning responsibilities:

- Increasing access for disabled pupils to the school curriculum (this includes teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits)
- Improving access to the physical environment of schools (this includes improvements to the physical environment of the school and physical aids to access education)
- Improving the delivery of written information to disabled pupils (this will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. The information should take account of pupils' disabilities and pupils' and parents' preferred formats and be made available within a reasonable timeframe)

The governing board also recognises its responsibilities towards employees with disabilities and will:

- Monitor recruitment procedures to ensure that individuals with disabilities are provided with equal opportunities.
- Provide appropriate support and provision for employees with disabilities to ensure that they can carry out their work effectively without barriers.
- Undertake reasonable adjustments to enable staff to access the workplace.

## **Contextual Information**

Mawnan School is a single-story building and has a disabled toilet in the main foyer. The school is maintained under the PFI2 agreement by Interserve. It is possible to access all areas of the school building in a wheelchair and to navigate around all areas of the outside. Access to the field and adventure playground at present would be tricky as there is no designated ramp.

At present we have no wheelchair dependent pupils, parents or members of staff;

The school has children with a range of disabilities to include moderate and specific learning disabilities.

## **Increasing access for disabled pupils to the school curriculum.**

Improving teaching and learning lies at the heart of the school's work. Through self-review and Continuous Professional Development (CPD), we aim to enhance staff knowledge, skills and understanding to promote excellent teaching and learning for all children. We aim to meet every child's needs within mixed ability, inclusive classes. It is a core value of the school that all children are enabled to participate fully in the broader life of the school. Consequently, all children have always been permitted to attend age relevant after school clubs, leisure and cultural activities and educational visits.

It is a requirement that the school's accessibility plan is resourced, implemented, reviewed and revised as necessary and reported on annually. Attached is a set of action plans showing how the school will address the priorities identified in the plan.

## **What is already in place?**

- The school layout is wheelchair accessible throughout. The school has two accessible toilets accessible from all areas of the school. The school carpark has a dedicated space for parents with children that have a disability and who are blue badge holders.
- Arrangements are made for pupils with allergies or medical needs (e.g. epi pen), Risk assessments are used to ensure activities on and off the school site cater for the needs of children with specific difficulties including physical disabilities.
- Where possible additional equipment is made available to enable SEND pupils to access the curriculum and be involved in all activities e.g. special scissors, pencil grips, specific seating, sensory resources, IT etc. The SENDCo and another member of staff has received positive handling training e.g. Team Teach.
- Access arrangements are in place to support children with their SATs.

## **The accessibility audit**

The governing board will undertake an **annual** Accessibility Audit.

The audit will cover the following three areas:

- **Access to the curriculum** – the governing board will assess the extent to which pupils with disabilities can access the curriculum on an equal basis with their peers.
- **Access to the physical environment** – the governing board will assess the extent to which pupils with disabilities can access the physical environment on an equal basis with their peers.
- **Access to information** – the governing board will assess the extent to which pupils with disabilities can access information on an equal basis with their peers.

This plan is reviewed **every three years** to take into account the changing needs of the school and its pupils. The plan is also reviewed where the school has undergone a refurbishment.
