

# CLASS 1 NEWS

## 3<sup>rd</sup> February 2017

This week has been all about our sense of touch. Inspired by the children's curiosity, we have experimented with identifying things purely by touch with and without gloves, investigated ice (extremely exciting) and compared a variety of textures. Many children have created textural pictures that can be "read" with their hands and we have attempted to make Lego structures only using 10 bricks with blindfolds on!

We have also spent a great deal of time discussing what 'respect' looks like at school. We created an assembly for the rest of the school that explored how we respect the people around us. We acted out being respectful at lunchtime, respecting Mr Brook and Mrs Williams during assemblies and wake and shake, how to show respect to Mrs Rawley in her office and our everyday respect in Class 1. The children were very brave, spoke beautifully and did us proud!
