

# CLASS 1 NEWS

29<sup>th</sup> March 2018

This week has been all about Easter. We have been learning how to use directional language such as forwards, backwards, quarter turn, half turn and full turn, to the left and right (used approximately!) and under, over, next to etc., to guide our friends and hunt for Easter treats. We have also used this to be very bossy when writing our instructions down.

We had a super Spelling Bee on Wednesday and I was incredibly proud of all the children for having a go, everyone went to the Superstars and enjoyed the experience.

On Wednesday and today we hunted for eggs, firstly with our Class 3 reading partner friends and then today, thanks to the PTA and Hannah Martin for organising. This afternoon we have also been problem solving as we tried to make our eggs travel the furthest distance with the least amount of damage. Great structures were created using all sort of kit.

Finally, thank you for all your ongoing support and encouragement. Your children are incredibly happy learners and are making great progress. Thank you for everything you do to make this possible. Happy Easter!
